

# ROLLERS REFURBISHMENT

**FULL PERFORMANCE INSTEAD OF EXPENSIVE NEW PURCHASES – RELY ON PROFESSIONAL REFURBISHMENT. SUSTAINABLE. PRECISE. ECONOMICAL.**

**OUR PROCESS DESERVES MORE THAN JUST A REPLACEMENT.**

Usage, heavy mechanical influences, or thermal stresses impair the performance of your calender roll long before it fails. With our precisely coordinated refurbishment, you can get the most out of your existing calender rolls – economically, sustainably, and with technical excellence.

**OUR REFURBISHMENT SERVICES AT A GLANCE**

## CONDITION ANALYSIS & INITIAL INSPECTION

Documentation of the current condition, damage assessment, determination of causes.

## DISASSEMBLY & ASSEMBLY OF BEARING UNITS

Complete service including handling and documentation.

## HIGH-END COATINGS

Carbide, chrome, and other coating solutions – tailored to your process.

## GRINDING WITH $\mu\text{m}$ PRECISION

For perfect dimensional accuracy and exact tolerances.

## HOT GRINDING

High-precision process for maximum precision – indispensable for complex requirements.

## QUALITY CONTROL & DOCUMENTATION

Digital evaluations, test reports, traceability.

## PLANTS IN NORTH AMERICA AND EUROPE

Local presence in key markets of the battery and roll industry.

## YOUR ADVANTAGES AT A GLANCE

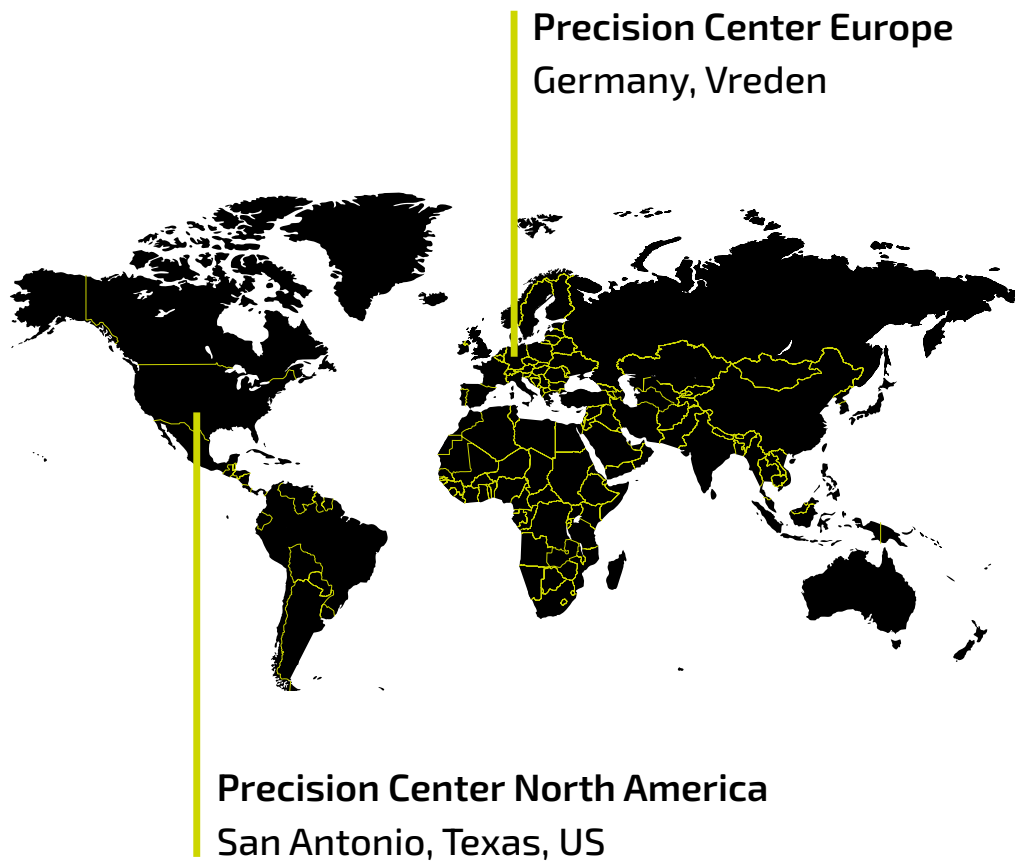

- Up to 80% cost savings compared to new purchases
- Extended roller service life & downtime
- Reduction in unplanned downtime
- CO<sub>2</sub> savings through recycling
- Increased efficiency & product quality

## WANT TO DEEPEN YOUR KNOWLEDGE? BOOK A WORKSHOP!

Would you like to not only repair, but also understand, optimize, and prevent? Then our refurbishment workshop is the ideal addition: directly at your location or in our factory - with practical content tailored to your specific challenges.
